Below U.O.R. No.LGB-2651/32646 dated the 24th April 1951 from Govt. in the Public Works Department, Bombay.

No.LRM-31/142-72- of 1951-52

P.W.D.Offices Churchgate St.,
Bombay 13th March 1952.

Returned with compliments.

2/- There are 4 D.C. generating sets having a total rated capacity of 300 K.W and an effective capacity of 206 K.W The normal maximum demand is as much as 205 K.W. and during the Divali period this has reached 218 K.W.

3/- Two second hand A.C. sets of rated capacities 100 and 48 K.W. respectively have been purchased from the Governme of Madras and the Supply Co. proposes to erect these two sets in an adjoining structure to their main power house. At prese these sets are being reconditioned and overhauled as they are old ones. In order to ensure continuous regular and sufficien supply to the consumers at all times it is necessary that the Co. expedite the erection of the sets and commencement of A.C. supply to those parts of the town proposed to be supplied from this source of supply and that they undertake further conversion to A.C. within their area of supply to be ready to receive A.C. supply from the Grid Department when it is made available.

Subject:- Supply position at Gadag.

Reference: Government, Public Works Department, endorsement, No.LGD 2651 K, dated the 19th May 1952. P-31

2. It is reported that two A.C.generating sets have been completely erected on cement concrete foundation and connected upto the new switchboards. All that has remained to be done for commencing the A.C.supply is the connecting of the overhead B.C. line to the main switchboard through necessary control gear, and the overhauling of the D.C.460 volt line and converting the same into a 3 phase line. The Supply Company has, as per a public notice dated 1-9-1952, stated that it is commencing A.C.supply to a part of the town on 13-10-1952.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:-Supply position at Gadag.

P-33

Reference:-This office letter No.LRM.7/8980 dated 9-10-1952.

It is further reported by the Electric Inspector, Poona that the two sets of 48 K.W. and 100 K.W. are satisfactorily errected and A.C. Supply would be made available to the part of the town from 13-10-1952. The two A.C.Sets cannot, however, be put in parallel operation at present as the synchronising equipment has not yet been received by the Supply Company.

Out of the four feeders and one street light feeder, the Supply Company intends converting one feeder to A.C.Supply on 13-10-1952. The Betigeri feeder would also have been converted to A.C. Supply but for the permission to run an additional wire for the neutral for the O.H.line crossing the Railway lines which is awaited from the Regional Engineer, Southern Railway, Mysore.
